

MESSAGE FROM THE FOUNDER CHAIRMAN

SRI PRASANTA SUR

It is matter of great joy that the city of Kolkata is going to have a new college of Engineering and Management, ready to offer courses in Civil Engineering, Computer Science and Engineering, Electronics and Communication Engineering, Electrical Engineering, Information Technology and Instrumentation and Control Engineering as also Bachelor's programmes in Computer Application and Business Administration and MBA. Located in one of the most beautiful spots of the city and easily approachable from a number of points, including Netaji Metro Rail Station, the Institution has built up a huge infrastructure in the shape of library and laboratories, workshops and lecture theatre.

Teachers, having brilliant academic records and the members of supporting staff sector, having records of splendid service, are all eager to dedicate their energy at the altar of the Institution and are ready to receive the several batch of students. The aim of the Institution is to produce young engineers and technologists, who will be burning with scientific insight, and at the same time will feel a justified place of pride in the rich cultural heritage of the nation.

The globalisation and subsequent opening up of the economy has given fill up to to the growth in the industrial and service sector. To support this development more qualified engineers will be required in not so distant a future.

I am sure through concerted effort of all and perfect understanding between the member of the faculty and students, supporting staff and member of the administrative fraternity, Calcutta Institute of Engineering and Management will soon blossom forth into a centre of excellence in the field of Engineering and Management in the country.
